

Alexandra Kalmbach

MAJOR:

I'm and Accounting major. I intend to enter some sort of financial accounting career, although I don't have anything specific in mind.

TECHNOLOGICAL BACKGROUND:

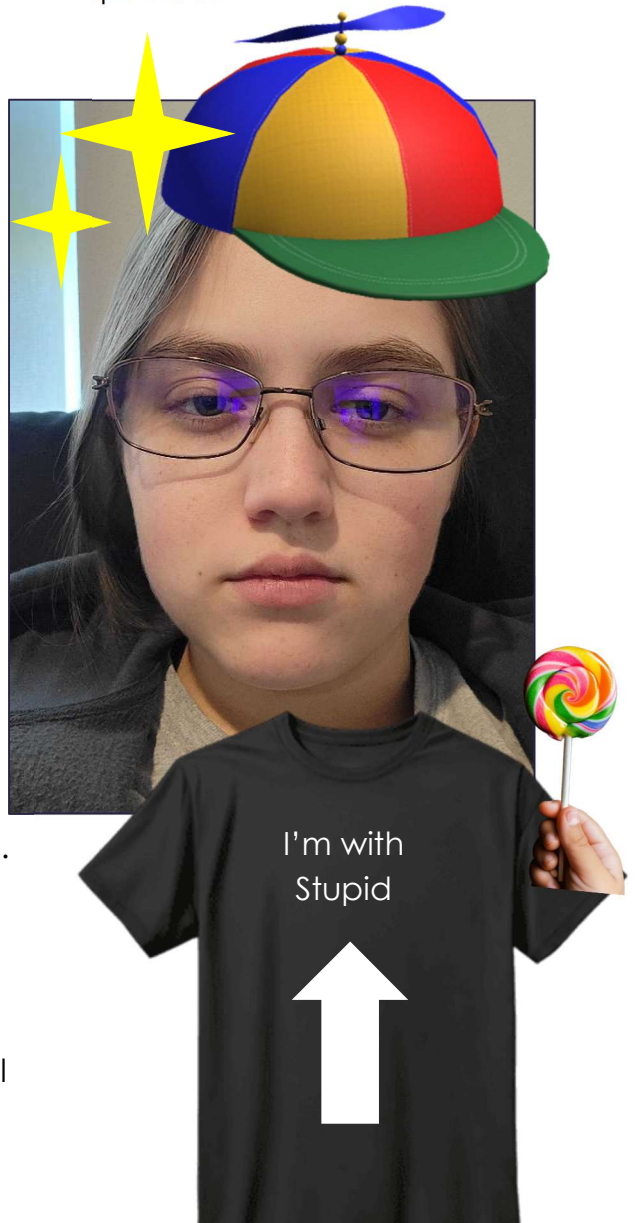

I have a notable background with technology, including proficiency with Microsoft Office products, for both work and for my personal life, as well as general computer skills, such as knowing what file explorer is.

ABOUT ME:

- I'm from Fresno, CA. I chose UNR because I wanted to be independent from my family, which required me to be further away, but it is still a convenient location for my family to travel to.
- Hobbies: I play video games, especially MMORPGs. My favorite currently is Final Fantasy 14. I also play the bass guitar.
- Music: I like over-the-top heavy metal, of which my favorite is currently Avenged Sevenfold. However, most heavy metal isn't good for bass guitar playing, so I also listen to a lot of other things, one of my favorites being Haku, although I don't know their genre.
- Movies: I enjoyed Iron Lung

ADDITIONAL:

I have a chronic health condition that may impAct my performance in this class, but I will do my best to communicate as necessary. Thank you for your understanding.
